Please follow manufacturer's recommended use and safety guidelines. Use proper safety equipment and exercise caution when handling sharp objects.

KNIVES & BLADES

Standard 9mm Knives

KDS L22 Gripfit Autolock Knife
50157269

Heavy-duty knife with comfortable grip. Use with any 8pt blade to cut window films 7 mil or greater.

Olfa "Silver" Stainless Steel Knife
50148578

The original Olfa stainless steel knife.

Olfa A-1 Knife
50149239

Used for film pattern cutting and trimming. Features a moulded plastic handle for maximum control and comfort. Right or left hand use.

NT Pro A-1 "Red Dot" Knife
50149232

Regarded by many installers as the finest professional knife available. The blade can be advanced in 1/2 segment increments for precision control. Right or left hand use. Now includes a stainless steel blade.

Olfa "Silver 2" Knife
50149242

Significantly improved over the original "Olfa Silver." Features right or left hand use, blade position auto-lock, and one-segment click-action.

KNIVES & BLADES

Standard 9mm Knives

NT A300GR KNIFE
50192438

All-purpose standard duty utility knife with stainless steel sliding holder and sturdy aluminium die cast grip for long lasting use. Ratchet auto-lock slider locks blade in place while cutting. End cap also functions as a blade snapper. Designed for either left or right-handed use with simple reversal of blade.

Olfa AB50B Carbon Snap Blades
50157813

Standard carbon snap blades with superior sharpness and edge retention. This 9mm blade fits most standard duty knives and has 13 cutting edges per blade. Pack of 50.

Olfa Ultramax ABB50B Carbon Snap Blades
50175908

These blades are double-honed for extreme sharpness and are 25% sharper than the standard duty carbon blade. 13 cutting edges per blade, 50 blades per pack. Fits most standard Olfa knives.

Olfa AB10S Stainless Steel Snap Blades
50184741

The industry standard when it comes to snap blades for film and pattern cutting. 13 cutting edges per blade. Use in most standard duty knives. Pack of 10.

Any blade can scratch glass!

It is recommended to use stainless steel blades when cutting on glass. However, any blade can scratch glass depending on the glass type, angle of the blade and edge sharpness. Take care when cutting on glass.

KNIVES & BLADES

Olfa AB10S Stainless Steel Snap Blades
50149243

Pack of 50.

Olfa LBB-50B UltraMax 8pt Blades
50149240

Specially honed for extremely sharp edge ideal for cutting thick films, 7 mil or greater.
Pack of 50.

Olfa Sac1 Knife
50197875

Slim stainless steel body with a 30° angle blade for precision in pattern cutting. Great for graphics and paint protection. Use 50197876 replacement blades.

Olfa A1160B 30° Carbon Blades
50197876

Standard duty acute angle snap-off blade for use when precision is a must. Seven cutting edges per blade strip.
Pack of 10.

Tool Tip

Try the most popular knife and blade option for the various applications.

- Automotive/Residential Window Films use the Olfa Silver or Red Dot with the Olfa Stainless Steel Snap blades.
- Paint Protection use the Olfa SAC1 and the Olfa 30° carbon blades.

SCRAPERS & BLADES

1" Clip Scraper
50149255

This effective scraper will accommodate standard or stainless steel 1" single edge blades as well as 50149195 plastic razor blades. Try the Lil Chizler in these handles for more leverage.

Heavy Duty 1" Razor Scraper
50148556

Retractable safety scraper; intermediate blade position keeps the blade from sliding out while in use.

1" Neon Mini Scraper
50149184

Holds 1" single edge blade.

1" Single Edge Blades
50149185

Use in any 1" blade holder. #9 Carbon steel single edge blade, non-rust aluminium back, (.009"/.2886 mm).
Pack of 100.

6" Red Heavy-Duty Triumph Scraper
50149252

Scraper ideal for film removal. Includes cover and one double edged blade. Use 50149191 as replacement blades.

SCRAPERS & BLADES

1" Stainless Steel Single Edge Blades 50149186

Use in any 1" blade holder. Stainless steel, uncoated (.009"/0.23mm).
Pack of 100.

Plastic Razor Blades 50149195

Perfect for removing leftover film and adhesive from surfaces that are easily damaged, such as rear window defrosters or other sensitive glass surfaces.
Pack of 100.

3" Triumph Scraper 50149249

Smaller version of the Triumph.
Designed to fit perfectly into corners.

3" Triumph Carbon Blades 50149187

Use in 3" Triumph Scraper (50149249), (0.20mm x 3")
Pack of 10.

Tool Tip

Plastic razor blades are the most effective way to safely prep automotive glass. Although the blades are plastic, proceeding with caution is always a good idea.

SCRAPERS & BLADES

4" Carbon Scraper Blades 50149188

Fits the 50149250, (0.017mm x 4").
Pack of 10.

4" Carbon Scraper Blades 50149189

Fits the 50149250, (0.017mm x 4").
Pack of 100.

6" Triumph Scraper 50149254

Lightweight and maneuverable. Includes cover and double-edged blade.

6" Ergonomic Triumph Scraper 50157272

An improved version of the standard 6" Triumph scraper with rounded corners for a more comfortable grip. Includes cover and one double-edged blade.

4" Scraper with extended handle 50149250

4" scraper with extended handle allowing for better leverage. Use with 50149188 or 50149189 as replacement blades. Blade cover included.

HANDLED SQUEEGEES

5" Yellow Flat out Blade
■■■ 50209488

Slightly harder than the Orange Crush and comparable in hardness to the Blue Max products they work great in flat glass and security applications. For best results try in a Fusion Handle or Thor's Hammer.

Orange Crush
■■■ 50184813 - 8" Orange Crush
■■■ 50205793 - 5" Cropped Orange Crush
■■■ 50184785 - 5" Orange Crush

These blades help remove water while keeping their strength. The Orange Crush conforms to curved glass. Blades fit into a handled grip or can be used on their own.

The Bulldozer I - Automotive
■■■ 50156648

Allows you to get to those hard to reach areas, such as behind speakers, brake lights, low angles and rear windows. Features a 6" squeegee blade and is 15" in overall length.

Stroke Doctor
■■■ 50157007

Designed with I-beam construction handle that features an ergonomic slip-resistant grip and longer blade to apply squeegee pressure more evenly in the most hard to reach places.

Stroke doctor replacement blade
■■■ 50201164

Replacement blade for 50157007.

HANDLED SQUEEGEES

Go Doctor Red (Soft)
50184916 ■■

A fully integrated squeegee system where all of the components have been designed to work together. The I-beam handle is wrapped with a comfortable, non-slip material that provides secure grip. Go Doctor incorporates a quick-change blade system for speedy on the job replacements.

Go Doctor Red Blade (Soft)
50184917 ■■

Use for window film and paint protection installs.

Grip-n-Glide
50201039 - Yellow (Flex-Firm) ■■■
50201088 - Orange (Soft) ■■

Grip-N-Glide combines an ergonomic handgrip with high-performance, interchangeable blades to give you just what you need for tint and PPF installations.

Grip-n-Glide Replacement Blade
50201087 - Yellow (Flex-Firm) ■■■
50201089 - Orange (Soft) ■■

Unlike tube squeegees with their belt-sanded round edges, the Grip-N-Glide features a .24" thick squeegee blade with French edges that are machine milled for maximum water extraction. Use either the firm yellow 90A or softer orange 85A blade to meet your application needs.

Performax Handle
50149327

Ideal for water extraction when used with the 5" Blue Max Squared or Clear Narrow. Features socket that accepts standard broom or paint roller extensions allowing for greater leverage.

SQUEEGEE ESSENTIALS

Slammer
 ■■■■ 50148560

Used for cleaning corners and along gaskets, wicking water out along borders and easily reaches rear windows.

6" Clear Super Squeegee
 ■■■■ 50184799

Ideal for general purpose squeegeeing. The consistency of the material produces great results with minimal effort.

Shuttle
 ■■■■ 50184926

A hard card with the ability to reach into tight areas located at the bottom edge of rear window glass.

50157256

50157257

Gator Blade
 ■■■■ 50157256 - I
 ■■■■ 50157257 - II

The Gator Blade I and Gator Blade II products are alternatives to the Lil' Chizler. Each has a unique shape to give you a better grip making it easier to apply pressure.

SQUEEGEE ESSENTIALS

50148561

50149302

The Conqueror™ Squeegee
 50148561 - Yellow ■■
 50149302 - Blue ■■■

The Conqueror is the original corner reach tool. Features a soft squeegee blade along one edge and pointed hard card tips on the ends making it a versatile staple to any tool kit. Use the Blue version for a harder blade.

6" Block Squeegee
 50148558 ■■■■

Combination rubber cleaning squeegee/hard card used for finishing during film installation. Can be cut to various angle shapes to reach tight, sharp corners.

6" Short Cut Squeegee
 50220795 ■■■■

This new tool was designed to finish the squeegeeing process of windshield and back windows in areas where your typical squeegee and handle are unable to reach. The goal was designing a tool that would be long enough to reach deep in to the window edge past the dot matrix. The tool also needed extraordinary rigidity, excellent grip, thin enough for tight areas, and small enough to fit in the pouch without any discomfort while still easy to reach.

Tail Fin Yellow (Firm)
 50184952 ■■

Great for getting behind brake lights and back window applications. Finger holes make holding onto the Tail Fin easy.

50148559

50184884

The Lil' Chizler
 50148559 - Lil' Chizler ■■■■
 50184884 - Dura Chisel ■■■■

Ideal for removing decals, film or adhesive from sensitive surfaces. Use for pressing down small film creases or air bubbles.

Tool Tip

The Lil' Chizler can be used to scrape away softened glue residue without scratching the glass surface.

HARD CARDS

Blue Hard Card
■ 50149321

Excellent soft card tool for edging and wicking water.

White Hard Card
■■■ 50148580

Excellent tool for edging and wicking water.

Black Hard Card
■■ 50149320

The Teflon® Black 2000 Card gives the greatest gripping power of the trio of White, Gold and Black cards.

Gold Hard Card
■■■■ 50148581

A versatile tool used for installing window films and vinyl. Has a small amount of flex to allow the installer to provide adequate pressure to ensure adhesion between film and surface. A true professionals tool that should be part of any installers kit, hard-wearing and long-lasting this hard card will see you through most jobs.

Platinum Hard Card
■■■■■ 50149322

The Platinum card is stiffer than the white card and has the gripping power of the Black card, and has many uses in flat glass and auto installation, including border trimming etc.

HARD CARDS

Peach Hard Card
50205768 ■■■■

The Peach series hard card will glide effortlessly over the surface window film and PPF. Same traditional applicators with a new born material structure.

4" 3M® Blue Squeegee
50149290 ■■

These cards can be used in window tinting either as a cutting guide or when tissue is wrapped around the card they can be used to remove excess water. This card can also be used to fit PPF.

4" 3M® Gold Squeegee
50149289 ■■■■

This professional Gold applicator from 3M is nylon reinforced to keep its edge and make it more durable, last longer than ordinary squeegees. The ideal choice for vinyl and film application, 4 inches that will fit comfortably in your hand, a tool used by many professionals installing vinyl wall art/graphics to automotive tints and architectural films.

4" Yellow Lidco™ Squeegee
50148557 ■

These cards can be used in window tinting either as a cutting guide or when tissue is wrapped around the card they can be used to remove excess water from under the film.

4" Universal Hardcard Squeegee
50149291 ■■■■

These cards can be used in window tinting either as a cutting guide or when tissue is wrapped around the card they can be used to remove excess water.

HARD CARDS

4" Grey Lidco™ Nylon Hardcard Squeegee
 ■■■■■ 50156977

These cards can be used in window tinting either as a cutting guide or when tissue is wrapped around the card they can be used to remove excess water from under the film.

6" White Hard Card Squeegee
 ■■■■ 50149311

Extra large version of the white hard card.

4" Lime Speed Wing
 ■■■ 50201190

The Speed Wing is designed with "wings" to enable the installer to reach areas typically out of the reach of most bump, bondo, Teflon and hard cards. The Speed Wing comes with one flat edge and one curved edge. Speed Wings are made from materials that enable it to slide across most film surfaces easily while maintaining its rigidity to lay the material flat and remove moisture or air trapped underneath.

4" Lemon Suede Blade (Flex-Firm)
 ■■■■ 50205780

Evolved from the success of the Speed Wing family the new Suede Blade has quickly answered a lot of challenges for installers. The Suede Blade comes with a dual layer fabric that gives installers a cushioned, smooth fabric over the edge of the squeegee. The Suede Blade glides over window tint, paint protection film and vinyl graphics/wraps with ease.

Suede Blade Strip
 50205723

4" Suede replacement strip.
 These are die cut to fit the 4" Lemon Suede Blade (50205780).

TUBE SQUEEGEES

Black Smoothie™
 50149292 - 4" Tube Squeegee ■
 50148562 - 9" Tube Squeegee ■
 50212738 - 4" Blade only ■
 50149286 - 28" Blade only ■

Soft black squeegee used for glass cleaning and PPF installation.

18" Red Turbo Blade
 50149279 ■■■■

The hardest version of the Turbo Blade, used for removal of application solution during the installation process.

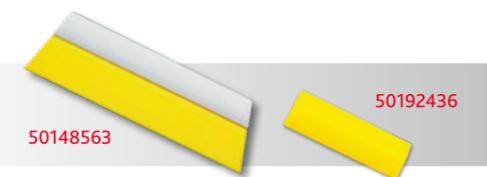

18 1/2" Green Turbo Blade
 50157539 ■■

The green turbo is perfect for paint protection installs, can be cut down to smaller sizes, and has a durometer (hardness) between the Black Smoothie and the Yellow Turbo Blade.

Yellow Turbo
 50148563 - 5 1/2" Yellow Squeegee ■■■■
 50192436 - 5" Yellow Blade ■■■■

An installation squeegee used to remove application solution during installation of all auto and paint protection films.

18 1/2" Soft DK. Yellow Turbo Squeegee Blade
 50157004 ■■■■

A soft installation squeegee used to remove application solution during installation of all auto and paint protection films.

Tool Tip

Use Teflon Tape (50184932) on the edge of your turbo blade to make it slide even smoother across paint protection film or vinyl. Works well with all handled squeegees and hard cards too.

INSTALLATION ACCESSORIES

Olfa DC4 Blade Disposal Case
50149181

Blade disposer that can be emptied and re-used.

Ergodyne Waist Apron
50207062

Heavy duty 13 pocket tool apron. Clip closure for secure, comfortable fit.

WrapGlove® (Pair)
50205771
50205772 - XL

The new WrapGlove is sold in pairs and is a must have for anyone installing vinyl graphics and vehicle wraps. Installing with your bare hands can cause over stretching and puckering of the vinyl as well as potential damage from the transfer of oils on your skin. This lint free and durable WrapGlove reduces friction while handling the material giving you great results every time.

Kevlar Heat Gloves (Single glove)
50184754

Heat-resistant gloves great for use during heat shrinking.

WrapGlove® Ghost Glove (Single glove)
50220794

Made in the USA, lint free, static resistant and machine and hand washable. One size fits most (spans Medium through XL). No fingerprint transfer to adhesive, inherent to bare hand application of PPF. No hot spots from hand when installing kits or large panels.

Tool Tip

You don't want to leave behind discarded blades on a job site for a potential injury later. Safely snap blades into a disposal unit (50149181).

INSTALLATION ACCESSORIES

Automotive Glass Edge Trimmer
50184842

Use along the top edge of roll down windows for a precise "micro-edge" finish (1/8"). Use 50149186 as a replacement blade.

Bladeater
50184831

Designed for professional installers, the Bladeater holds your knife safely and securely, and allows you to easily snap and discard blades into the replaceable well. Once the well is full, simply toss the well, blades and all.

50204136

50204135

50204156

Soak Shield Rope

- 50204136 - Mini (Length approx 1.52m, Thin)
- 50204135 - Original (Length approx 1.52m, Thick)
- 50204156 - XL (Length approx 2m, Thick)

The window tinting industry's original braided water absorbent rope. Soak Shield is tucked between the glass and the dashboard or panel trim to reduce the chances of water damage to electronic parts during film installation.

50209486

50209487

Smooth-It Mat

- 50209486 - Black (Medium)
- 50209487 - Grey (Fine)

Smooth-It is designed to effectively and evenly smooth out the edge of most tools used for film installation. It works great on plastic and rubber tools. The black mat is a medium fabric that works best and faster on big or deep scratches in the tool's edge while the grey mat is a fine fabric that is ideal for removing small or light scratches from the tool.

4" Lidco Felt Sleeve
50184773

A felt wrap for any 4" hard card squeegee.

INSTALLATION ACCESSORIES

50209490

50209277

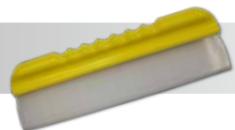

Smooth-It Replacement Mat 50209490 - Black (Medium) 50209277 - Grey (Fine)

Smooth-It Replacement Mats are sold in a 3 pack. The black (600D) mat is a medium fabric that works best and faster on big or deep scratches. The grey (1000D) is a fine fabric, ideal for removing small or light scratches on your installation tools.

Hard Card Sharpener 50149308

A useful tool to keep hard cards and other squeegee edges smooth. Uses 9mm replacement blades (50149243).

Yellow One Pass Squeegee 50183183

Flexible handle & silicone squeegee used for removing water from a vehicle surface.

Sunny Tucker 50201090

This wrap tool provides multi-functionality use by allowing the installer to reach edges and body lines like never before. This tool is a must have if you apply any graphics to challenging surfaces.

Clay Bar 50170137

As contaminants connect with the bodywork of your car, they pierce the paintwork to become lodged in the surface coating. In some cases the only way to remove these is to use a product like detailing clay, which either pulls the contaminant out of the paintwork or cuts them down to smoothen the surface of your paintwork. Crucial before installing PPF, to avoid seeing high points sometimes confused for dust inclusions.

MEASURE, MARK & TRIM

8" Triangle 50184808

30°/60° with circle templates.

Film Opaquer Pen - Thin Point 50149216

Used by installers to hide fine line mistakes in trimming which cause excess light intrusion at film edge.

Film Opaquer Pen - Broad Point 50149215

Used by installers to hide mistakes in trimming which cause excess light intrusion at film edge.

36" Straight Ruler 50149335

Imperial measurements including 1/8ths & 1/16ths.

Tool Tip

When using clay bars be sure to use a slip solution to lubricate the painted surface.

MEASURE, MARK & TRIM

1 1/2" Black Acrylic Felt 50149211

Helps reduce scratching of automotive films on vehicle roll down windows, (50" per roll).

Black Out Tape - 150" Roll 50149180 - 1/2"

Black matte vinyl used to hide light gaps along edges of film installations.

"Do Not Roll Down" Stickers 50165749

Perfect as a reminder on new auto installs. Features low-tack adhesive, (1000 per roll).

50184920

50184915

Red Film Tape 50184920 - 1" 50184915 - 3/8"

Features low-tack adhesive. Use to retape film rolls for storage, (55 meters per roll).

Slip Teflon Tape 50165448 - 3.6 meter Slip Tape 50184932 - 11 meter Slip Tape

Slip tape is the ultimate product for making your application squeegees smoothly and safely glide across window film, paint protection, car wrap and vinyl graphic applications. Avoid tearing or scratching the material you are working with.

Tool Tip

Application of felt tape has become a popular solution to the familiar "scratching" problem on vehicle roll down windows.

MEASURE, MARK & TRIM

Yellow Film Marker 50149214

Handy for 3 basic purposes:

1. Marking film prior to installation of windows with unusual shapes (arches, trapezoids, etc.) which must be cut to approximate shape before the final "lay-up".
2. Circling a contaminant (hair or fiber) before pulling back the film to remove it.
3. Marking film edges to check for glass movement on side roll-ups during the trimming process. Yellow grease mark easily wipes away.

5-Way Trim Guide 50184791

Use this tool as a trim guide or wrap in paper towels and use as a bump tool.

Angle Measurement Tool 50157577

This is an essential tool for all exterior window film applications on non-vertical glass. It immediately determines whether the slope of the glass (on skylights, for example) will allow warranty coverage.

Soooper Clip 50175907

Faster and easier than tape or rubber bands. Ideal for securing part roll window films. (50 Pack).

NEW

SPRAYERS & ACCESSORIES

Polyspray 2
50149245

This pressurised spray bottle holds more solution than the 32 oz. bottles and reduces "finger-fatigue" eliminating the need for pumping while spraying via a simple trigger. Handy for large windows and long duration sprays. Has an adjustable spray nozzle, (1.25 litre).

Impact Jr. Pump-up Sprayer
50149177

Pressurised spray bottle that holds 1.4 litre and reduces "finger-fatigue" eliminating the need for pumping while spraying via a simple trigger. Has adjustable spray nozzle.

1 litre Bottle
50149209
Maxi Trigger Sprayer
50148555

Empty 1 litre bottle only. An industry staple. Ergonomic trigger with high output and durability.

Mercury 360° Chemical Resistant Bottle (1 litre)
50214374

The Mercury chemical resistant 1 litre sprayer is perfect for use with IPA mixtures. The bottle can flip 360 degrees and keep spraying, perfect for difficult to reach areas. The trigger has an adjustable nozzle for custom water dispersion.

Tool Tip

Due to the large amounts of contamination in tap water, to achieve the best results and the cleanest installs we highly recommend using distilled water or a reverse osmosis filtering system.

SPRAYERS & ACCESSORIES

Mercury 360° Chemical Resistant Bottle (500 ml)
50214375

The Mercury chemical resistant 0.5 litre sprayer is perfect for use with IPA mixtures. The bottle can flipped 360 degrees and keep spraying, perfect for difficult to reach areas. The trigger has an adjustable nozzle for custom water dispersion.

Mercury Pro + Bottle and Trigger
50184890

The next generation in spray bottles, the Mercury PRO+ features viton seals and a double action pump that sprays both when you pull back and when you release the trigger giving you more liquid with each pull. This lightweight ergonomic trigger/bottle combo holds up to 1 litre of fluid.

Mercury 360° Bottle (500 ml)
50214377

The Mercury 0.5 litre sprayer is perfect for use with soapy mixtures. The bottle can flipped 360 degrees and keep spraying, perfect for difficult to reach areas. The trigger has an adjustable nozzle for custom water dispersion.

Mercury 360° Bottle (1 litre)
50214376

The Mercury 1 litre sprayer is perfect for use with soapy mixtures. The bottle can flipped 360 degrees and keep spraying, perfect for difficult to reach areas. The trigger has an adjustable nozzle for custom water dispersion.

Tool Tip

Always clean your tanks and sprayers after 48 hours of use to keep contamination down. Don't forget to clean the filters!

SPRAYERS & ACCESSORIES

Mercury 360° Bottle (2 litre)
50214378

The Mercury 2 litre sprayer is perfect for use with soapy mixtures. The bottle can flipped 360 degrees and keep spraying, perfect for difficult to reach areas. The trigger has an adjustable nozzle for custom water dispersion.

Spraymaster Bottle & Trigger
50149266

An overall heavy-duty sprayer, this spray bottle comes with a 5 year manufacturer's warranty and is chemically resistant. It is equipped with a strong trigger and holds 1 litre.

Film-On Concentrate
50149218

1 litre concentrate mounting solution. Film-ON is a window tint mounting & cleaning solution. Film-ON can be used to install automotive window tint, paint protection film and flat glass film. Standard mix ratio is 7-14ml per litre.

Film-On Dispenser/Pump
50157412

2ml dispenser only.

SPRAYERS & ACCESSORIES

Tint Slime Gallon
50184946

Tint Slime is a window tint mounting & cleaning solution. Tint Slime can be used to install automotive window tint, paint protection film, flat glass film, and vinyl. Tint Slime is free of particulates and won't separate. Tint Slime is safe for use on interiors, biodegradable, and of course, tint safe. Concentrate; mix 7.5ml per litre of water.

Rapid Tac II - 30 oz
50184912

Great adhesive promoter even in cold weather conditions. A great solution for dot matrix areas or vinyl products.

HI-TAK Premixed Adhesive Solution
50222663

Specially formulated to help achieve quicker tack point adhesion during installation, HI-TAK is conveniently premixed - just pour into a spray bottle and use in place of your traditional water/alcohol mixture. The result is a consistent solution that lets you lock film in place faster, allowing for a more efficient installation.

Tool Tip

When mixing mounting solutions, it is recommended that you use filtered or distilled water for best results.

CLEANING & PREP

Gilmore Nozzle and W/15" Flex Hose Assembly 50157540

4.6 meter flex line hose and Gilmore nozzle assembly for 5 gallon stainless steel sprayer (50149333).

Gilmour Nozzle 50157005

Replacement nozzle for flex line hose on 5-Gallon Stainless Steel Sprayer (50149333 and 50157540)

5-Gallon Stainless Steel Sprayer (19 litre) 50149333

This pressure sprayer has a 15ft flex line hose with a brass tip nozzle. The no curl hose allows for less tension when maximising the reach. A great sprayer for any type of installation.

25' Replacement hose and spray gun 50157054

Replacement hose and nozzle assembly for 5 gallon stainless steel sprayer.

CLEANING & PREP

The Scrubber 50156904

Used to reach behind speakers and brake lights. Scrub away adhesive along the bottom edges of sloped rear windows. Uses replaceable standard White Scrub Pads (50149351) cut 2 x 3". This tool is 3" by 15" long.

Copper mesh 50156843

Copper mesh for cleaning small areas of automotive glass such as the dot matrix. Use with care, improper use might result in scratching glass.

Copper Mesh pad 50192339

The Copper Mesh Pad is for dot matrix prep ONLY! It will ABSOLUTELY scratch glass.

White Scrub Pad 50149351

Great for cleaning windows prior to installation.

Tool Tip

The 5-Gallon Stainless Steel Sprayer is fitted with a tyre valve that can be connected to a bicycle pump to build compression. Alternatively, a mechanical compressor can be used to build pressure.

CLEANING & PREP

Large Blue Paper Roll
50192468

500 x 38 cm x 38 cm

Virtually "Lint Free"
50168826

Reusable wipes. 300' of cloth per box.

Tool Tip

Low lint towels or wipes are a necessity for quality window film installations. Absorbent wipes are ideal for cleaning windows and covering hard cards for bumping or wicking around the film edge.

METERS

Infrared Thermometer
50157550

For contact-free measuring of surface temperature in 1 second.

Enforcer II
50149420

The TM1000 Enforcer II is a light weight and pocket sized automotive tint meter. It comes equipped with a coin cell battery that will last for up to 2500 uses and is auto calibrating. For rolldown windows only.

TM2000 Inspector II
50149235

The TM2000 Inspector II is the newest in two-piece light meter technology allowing you to measure ALL windows on vehicles with auto calibration accurate to within +/-2%. This meter is 75% smaller than older models and carries a 1 year manufacturer's warranty.

SP1065 Digital BTU Meter
50149233

This wide spectrum digital meter measures solar radiant energy intensity directly transmitted through glass (or the film-glass combination) in units of BTUs per square foot per hour or watts per square foot. Effective tool showing the relative effectiveness of various films in blocking solar radiant heat. Especially useful for showing how a very dark dyed film may allow far more energy to pass through than a much lighter metallic film. Can be switched to read in metric units. Powered by a 9-volt alkaline battery (included).
